What is the Tree Preservation Plan?

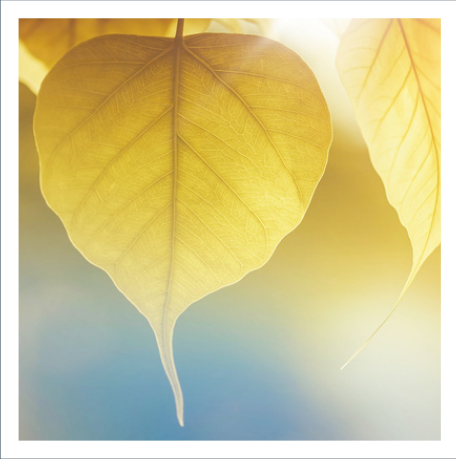

Our Tree Preservation Plan offers our customers peace of mind by having a certified arborist inspect their trees on an annual basis.

What we are looking for:

- We will inspect the structural integrity of your trees.
- We will recommend any pruning needs for your trees, whether it be removing deadwood for the health of your tree(s) or structural pruning to mitigate storm damage.
- We will propose any cabling or bracing needs for your trees.
- Any pest activity will be noted and sent to our Plant Health Care department for care.

HOW IT WORKS

INSPECTION TIMING

.....
Annual inspections
will occur during
the months of
June - October

PRICING

Pricing for our annual Tree Preservation Plan is based on the size of your property and number of trees we will be inspecting on an annual basis. Payment for your Annual Tree Preservation Plan is due at the completion of your inspection.

****The price of your inspection will be deducted from any pruning work accepted and completed from the inspection.****
